## For full text of Hazard- and EU Hazard-statements: see SECTION 16.

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP]. Results from in vitro test for

Skin Corr. 1B ; H314 - Skin corrosion/irritation : Category 1B ; Causes severe skin burns and eye damage. Eye Dam. 1 ; H318 - Serious eye damage/eye irritation : Category 1 ; Causes serious eye damage.

## 2.3 Other hazards

#### Adverse environmental effects

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

## 2.4 Additional information

see section 12.5

## SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures

#### **Hazardous ingredients**

METHANESULPHONIC ACID ; REACH No. : 01-2119491166-34-xxxx ; EC No. : 200-898-6; CAS No. : 75-75-2 ≥ 15 - < 20 % Weight fraction :

Classification 1272/2008 [CLP] :

Met. Corr. 1 ; H290 Skin Corr. 1B ; H314 Eye Dam. 1 ; H318 Acute Tox. 4 ; H302 Acute Tox. 4 ; H312 STOT SE 3 ; H335

Formic acid ; REACH No. : 01-2119491174-37-xxxx ; EC No. : 200-579-1; CAS No. : 64-18-6

Weight fraction : ≥ 0,5 - < 1 %

Classification 1272/2008 [CLP] : Flam. Liq. 3 ; H226 Skin Corr. 1A ; H314 Eye Dam. 1 ; H318

## Contains the following substances of very high concern (SVHC) which are included in the Candidate List according to Article 59 of REACH

None (below the concentration limit)

### Contains the following substances of very high concern (SVHC) which are subject to authorisation according to Annex XIV of REACH

None (below the concentration limit)

#### **Additional information**

All ingredients of this mixture are (pre)registered according to REACH regulation. For full text of Hazard- and EU Hazard-statements: see SECTION 16.

according to Regulation (EC) No. 1907/2006 (REACH)

## **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

#### **General information**

When in doubt or if symptoms are observed, get medical advice. Never give anything by mouth to an unconscious person or a person with cramps. If unconscious but breathing normally, place in recovery position and seek medical advice.

#### Following inhalation

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

#### In case of skin contact

After contact with skin, wash immediately with plenty of water and soap. Immediately remove any contaminated clothing, shoes or stockings. Do not wash with: Cleaning agent, acidic Cleaning agent, alkaline Solvents/Thinner

#### After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Protect uninjured eye.

#### **Following ingestion**

Call a physician immediately. Keep at rest. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Do NOT induce vomiting.

## Self-protection of the first aider

First aider: Pay attention to self-protection!

#### 4.2 Most important symptoms and effects, both acute and delayed

No information available.

#### 4.3 Indication of any immediate medical attention and special treatment needed Notes for the doctor

Treat symptomatically.

#### Special treatment

First Aid, decontamination, treatment of symptoms.

## **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

#### Suitable extinguishing media

Water spray jet ABC-powder Foam

## Unsuitable extinguishing media

Full water jet Strong water jet

## 5.2 Special hazards arising from the substance or mixture

Hazardous combustion products

Carbon monoxide Carbon dioxide (CO2)

## 5.3 Advice for firefighters

Use suitable breathing apparatus.

#### Special protective equipment for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.

#### 5.4 Additional information

Use water spray jet to protect personnel and to cool endangered containers. Do not allow run-off from fire-fighting to enter drains or water courses. Do not inhale explosion and combustion gases. The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

### **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

Page : 3 / 13

according to Regulation (EC) No. 1907/2006 (REACH)

## Trade name : Lit

Revision date : Print date : 16.11.2023 14.12.2023

## Lithofin KF Cement Residue Remover

Version (Revision) :

4.2.9 (4.2.8)

Wear personal protection equipment (refer to section 8). Provide adequate ventilation. Remove persons to safety.

#### 6.2 Environmental precautions

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

## 6.3 Methods and material for containment and cleaning up

#### For cleaning up

Suitable material for taking up: Universal binder

Clean contaminated articles and floor according to the environmental legislation. Retain contaminated washing water and dispose it. Dispose of waste according to applicable legislation.

#### **Other information**

Clear spills immediately.

## 6.4 Reference to other sections

Safe handling: see section 7

Personal protection equipment: see section 8 Disposal: see section 13

## **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

When using do not eat, drink, smoke, sniff.

### **Protective measures**

All work processes must always be designed so that the following is excluded: Inhalation of vapours or spray/mists Skin contact Eye contact Wear personal protection equipment (refer to section 8). Always close containers tightly after the removal of product. Do not breathe gas/fumes/vapour/spray. Use only in well-ventilated areas. If local exhaust ventilation is not possible or not sufficient, the entire working area must be ventilated by technical means. Technical measures and the application of suitable work processes have priority over personal protection equipment.

#### Measures to prevent fire

The product is not: Flammable Usual measures for fire prevention.

Fire class :

Shake well before use nein

#### Advices on general occupational hygiene

P362+P364 - Take off contaminated clothing and wash it before reuse.

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Keep container tightly closed. Keep/Store only in original container. The floor should be leak tight, jointless and not absorbent. Ensure adequate ventilation of the storage area.

#### Hints on joint storage

Storage class (TRGS 510): 8B

Protect from frost nein

Recommended storage temperature 5 - 25 °C

#### Further information on storage conditions

Keep locked up and out of reach of children. Keep container tightly closed in a cool, well-ventilated place.

## 7.3 Specific end use(s)

## Recommendation

Observe technical data sheet. Observe instructions for use.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### **Occupational exposure limit values**

## Lithofin KF Cement Residue Remover

16.11.2023 14.12.2023 Version (Revision) :

4.2.9 (4.2.8)

### Appropriate engineering controls

Ensure adequate ventilation of the storage area. Technical measures and the application of suitable work processes have priority over personal protection equipment.

## Personal protection equipment

## Eye/face protection

#### Suitable eye protection

Eye glasses with side protection goggles **Required properties** 

EN 166

## **Skin protection**

### Hand protection

Suitable gloves type : Gloves with long cuffs

**Suitable material** : Data apply to the main component. Butyl caoutchouc, 0,5mm, >8h; FKM (fluoro rubber), 0,7mm, >8h;

#### Required properties : EN ISO 374

**Recommended glove articles** : Manufacturer KCL GmbH/Eichenzell-Germany; Ansell/Yarra City-Australia Or comparable articles from other companies.

## Additional hand protection measures : Check leak tightness/impermeability prior to use.

**Remark** : Breakthrough times and swelling properties of the material must be taken into consideration. The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Barrier creams are not substitutes for body protection.

#### Body protection

Protective clothing.

Suitable protective clothing : Chemical protection clothing Chemical resistant safety shoes

#### Required properties : acid-resistant.

Protective clothing. : EN 13034 EN 14605

Chemical resistant safety shoes : EN ISO 20345

Remark : Barrier creams are not substitutes for body protection.

#### **Respiratory protection**

Usually no personal respirative protection necessary. Respiratory protection necessary at: insufficient ventilation aerosol or mist formation. high concentrations spray application

#### Suitable respiratory protection apparatus

Full-/half-/quarter-face masks (EN 136/140) Combination filtering device (EN 14387) ABEK-P1 (EN14387) Remark

Use only respiratory protection equipment with CE-symbol including four digit test number. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190).

#### **General information**

Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500. When using do not eat, drink, smoke, sniff. Avoid contact with skin, eyes and clothes. Remove contaminated, saturated clothing immediately. Wash contaminated clothing prior to re-use. Wash hands before breaks and after work. Apply skin care products after work. Do not breathe gas/fumes/vapour/spray.

## 9.2 Other information

None

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

## **10.2 Chemical stability**

The product is chemically stable under recommended conditions of storage, use and temperature.

#### **10.3 Possibility of hazardous reactions**

No hazardous reaction when handled and stored according to provisions.

## 10.4 Conditions to avoid

Stable under recommended storage and handling conditions.

## **10.5 Incompatible materials**

The product develops hydrogen in an aqueous solution in contact with metals.

## **10.6 Hazardous decomposition products**

Does not decompose when used for intended uses.

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

## Sewage treatment plant

Observe local regulations concerning effluent treatment. Before discharge into sewage plants the product normally needs to be neutralised.

### 12.2 Persistence and degradability

There are no data available on the preparation/mixture itself.

#### **Biodegradation**

The surfactants contained in this mixture comply with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

## 12.3 Bioaccumulative potential

There are no data available on the preparation/mixture itself.

#### 12.4 Mobility in soil

There are no data available on the preparation/mixture itself.

#### 12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 12.6 Endocrine disrupting properties

No information available.

## 12.7 Other adverse effects

There are no data available on the preparation/mixture itself.

#### 12.8 Additional ecotoxicological information

Additional information

The product has not been tested.

#### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Dispose of waste according to applicable legislation.

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

## Directive 2008/98/EC (Waste Framework Directive)

#### Before intended use

#### Waste codes/waste designations according to EWC/AVV

Waste code (EWC/AVV): 06 01 06\* (other acids)

#### After intended use

Do not allow to enter into surface water or drains. Non-contaminated packages may be recycled. Packing which cannot be properly cleaned must be disposed of. Delivery to an approved waste disposal company.

#### **Disposal operations**

Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of.

#### Waste codes/waste designations according to EWC/AVV

Waste code packaging: 15 01 10\*

#### 13.2 Additional information

These codes are assigned based upon the most common uses for this material and may not reflect contaminants resulting from actual use.

	, restrictions and prohibition	,	
Switzerland	, p		
VOCV-Regulation	on		
	content (Switzerland): 0 Weigl	nt-% according to VOCV	
15.2 Chemical Safety	( , j	-	
•	ixture a chemical safety assessme	ent has not been carried out.	

## 15.3 Additional information

## **SECTION 16: Other information**

## 16.1 Indication of changes

15. Water hazard class

## 16.2 Abbreviations and acronyms

ABC-Pulver	Extinguishing powder for fire class A, B and C
ABEK-P1	combination filter
ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road
AVV	Abfallverzeichnis-Verordnung (Waste Regulation)
AWSV	Ordinance on facilities for the handling of substances hazardous to water
BGR	BG rules and regulations
ca.	circa
CAS	Chemical Abstracts Service
CLP	classification, labelling and packaging
CMR	Carcinogen, mutagen or toxic for reproduction
DIN	German Institute for Standardization
DNEL	Derived No-Effect Level
EAK/EWC/EAC/CWR/CER	European Waste Catalogue

## **Safety Data Sheet** according to Regulation (EC) No. 1907/2006 (REACH)

Effective Concentration 50% European Community European Standard supplemental hazard statement of the european union Gefahrstoffverordnung (Hazardous Substances Ordinance) Globally Harmonised System			
European Community European Standard supplemental hazard statement of the european union Gefahrstoffverordnung (Hazardous Substances Ordinance)			
European Standard supplemental hazard statement of the european union Gefahrstoffverordnung (Hazardous Substances Ordinance)

Technische Regeln für Gefahrstoffe (Technical Rules for Hazardous Substances)			
time-weighted average			
United Nations			
Volatile Organic Compound			
Ordinance on the Incentive Tax on Volatile Organic Compounds (SR 814.018)			
very persistent and very bioaccumulative Wassergefährdungsklasse (Water hazard class)			

For abbreviations and acronyms, see table at http://abbrev.esdscom.eu. For abbreviations and acronyms, see: ECHA Guidance on information requirements and chemical safety assessment, chapter R.20 (Table of terms and abbreviations).

## 16.3 Key literature references and sources for data

REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL ECHA: Registered substances (https://echa.europa.eu/information-on-chemicals/registered-substances) REACH Article 59: Candidate List of substances of very high concern for Authorisation (https://echa.europa.eu/candidate-list-table)

## Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]

Hazard statements for physical hazards : On basis of test data. Hazard statements for health hazards : Calculation method.

Safety Data Sheet (EN) according to Regulation (EC) No. 1907/2006 (REACH)				
Trade name : Revision date : Print date :	Lithofin KF Ceme 16.11.2023 14.12.2023	nt Residue Remover Version (Revision) :	4.2.9 (4.2.8)	
	s for environmental hazards : Calculation nd EUH-phrases (Number an			
H226	Flammable liquid and vapour.			
H290	May be corrosive to metals.			
H302	Harmful if swallowed.			
H312	Harmful in contact with skin.			
H314	Causes severe skin burns and eye da	amage.		
H318	Causes serious eye damage.			
H335	May cause respiratory irritation.			

## 16.6 Training advice

None

## 16.7 Additional information

None

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
