## Additional information

All ingredients of this mixture are (pre)registered according to REACH regulation. For full text of Hazard- and EU Hazard-statements: see SECTION 16.

# **SECTION 4: First aid measures**

# Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Trade name :

Revision date : Print date :

Lithofin Anti-Slip

16.11.2023 15.12.2023

Version (Revision) :

6.0.7 (6.0.6)

## 4.1 Description of first aid measures

#### General information

When in doubt or if symptoms are observed, get medical advice. Never give anything by mouth to an unconscious person or a person with cramps. If unconscious but breathing normally, place in recovery position and seek medical advice.

## Following inhalation

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

#### In case of skin contact

After contact with skin, wash immediately with plenty of water and soap. Wash immediately with: Ca-Gluconate solution Immediately remove any contaminated clothing, shoes or stockings. Do not wash with: Cleaning agent, acidic Cleaning agent, alkaline Solvents/Thinner

#### After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Protect uninjured eye.

#### Following ingestion

Call a physician immediately. Keep at rest. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Do NOT induce vomiting.

## Self-protection of the first aider

First aider: Pay attention to self-protection!

#### 4.2 Most important symptoms and effects, both acute and delayed No information available.

#### 4.3 Indication of any immediate medical attention and special treatment needed Notes for the doctor

Treat symptomatically.

## Special treatment

First Aid, decontamination, treatment of symptoms.

## **SECTION 5: Firefighting measures**

## 5.1 Extinguishing media

#### Suitable extinguishing media

Water spray jet ABC-powder Foam

## Unsuitable extinguishing media

Full water jet Strong water jet

## 5.2 Special hazards arising from the substance or mixture

#### Hazardous combustion products

Carbon monoxide Carbon dioxide (CO2) Hydrogen fluoride

## 5.3 Advice for firefighters

## Use suitable breathing apparatus. Special protective equipment for firefighters Wear a self-contained breathing apparatus and chemical protective clothing.

#### 5.4 Additional information

Use water spray jet to protect personnel and to cool endangered containers. Do not allow run-off from fire-fighting to enter drains or water courses. Do not inhale explosion and combustion gases. The product itself does not burn. Coordinate fire-fighting measures to the fire surroundings.

## **SECTION 6: Accidental release measures**

# 6.1 Personal precautions, protective equipment and emergency procedures

Wear personal protection equipment (refer to section 8). Provide adequate ventilation. Remove persons to safety.

## 6.2 Environmental precautions

Usually no personal respirative protection necessary. Respiratory protection necessary at: insufficient ventilation aerosol or mist formation. high concentrations spray application

#### Suitable respiratory protection apparatus

Full-/half-/quarter-face masks (EN 136/140) Combination filtering device (EN 14387) ABEK-P1 (EN14387) **Remark** 

Use only respiratory protection equipment with CE-symbol including four digit test number. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190).

## **General information**

Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500. When using do not eat, drink, smoke, sniff. Avoid contact with skin, eyes and clothes. Remove contaminated, saturated clothing immediately. Wash contaminated clothing prior to re-use. Wash hands before breaks and after work. Apply skin care products after work. Do not breathe gas/fumes/vapour/spray.

Waste codes	/waste desig	gnations ac	cording to	EWC/AVV

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

Directive 2008/98/EC (Waste Framework Directive)

Waste code (EWC/AVV): 16 03 03\* (inorganic wastes containing hazardous substances)

#### After intended use

Before intended use

Do not allow to enter into surface water or drains. Non-contaminated packages may be recycled. Packing which cannot be properly cleaned must be disposed of. Delivery to an approved waste disposal company.

Observe local regulations concerning effluent treatment. Before discharge into sewage plants the product normally

The surfactants contained in this mixture comply with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the

Member States and will be made available to them, at their direct request or at the request of a detergent

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### **Disposal operations**

Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of.

#### Waste codes/waste designations according to EWC/AVV

Waste code packaging: 15 01 10\*

#### 13.2 Additional information

These codes are assigned based upon the most common uses for this material and may not reflect contaminants resulting from actual use.

**Biodegradation** 

manufacturer.

12.4 Mobility in soil

Version (Revision) :

6.0.7 (6.0.6)

(NZ/D)

Based on available data, the classification criteria are not met.

There are no data available on the preparation/mixture itself.

There are no data available on the preparation/mixture itself.

There are no data available on the preparation/mixture itself.

There are no data available on the preparation/mixture itself.

12.5 Results of PBT and vPvB assessment

12.8 Additional ecotoxicological information

Dispose of waste according to applicable legislation.

12.6 Endocrine disrupting properties

The product has not been tested.

**SECTION 13: Disposal considerations** 

No information available. 12.7 Other adverse effects

**Additional information** 

13.1 Waste treatment methods

## 16.7 Additional information

None

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
