Flam. Liq. 3 ; H226 - Flammable liquids : Category 3 ; Flammable liquid and vapour. STOT SE 3 ; H336 - STOT-single exposure : Category 3 ; May cause drowsiness or dizziness. Aquatic Chronic 3 ; H412 - Hazardous to the aquatic environment : Chronic 3 ; Harmful to aquatic life with long lasting effects.

## Additional information

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

## Remark

For full text of Hazard- and EU Hazard-statements: see SECTION 16.

## 2.2 Label elements

Safety Data She according to Regulat	eet tion (EC) No. 1907/2006 (REA	CH)	( NZ / D )

Hazard statement			
H226	Flammable liquid and vapour.		
H336	May cause drowsiness or dizziness.		
H412	Harmful to aquatic life with long lastir	ng effects.	
Precautionary sta	tements		
P102	Keep out of reach of children.		
P210	Keep away from heat, hot surfaces, s	parks, open flames and other ignition	sources. No
	smoking.		
P271	Use only outdoors or in a well-ventilat		
P312	Call a POISON CENTER/doctor/ if yo	ou feel unwell.	
P405	Store locked up.		
P501	Dispose of contents/container in acco	rdance with local and national regulat	ions.
Supplemental haz	ard information		
EUH066	Repeated exposure may cause skin d	ryness or cracking.	
Special rules for s	supplemental label elements for certa	in mixtures	
EUH208	Contains (R)-P-MENTHA-1,8-DIENE.M	ay produce an allergic reaction.	
Other labelling			
other labeling			
2.3 Other hazards			

## Adverse physicochemical effects

In case of insufficient ventilation and/or through use, explosive/highly flammable mixtures may develop. This material can be ignited by heat, sparks, flames, or other sources of ignition (e.g., static electricity, pilot lights, mechanical/electrical equipment, and electronic devices such as cell phones, computers, calculators, and pagers which have not been certified as intrinsically safe).

#### Adverse environmental effects

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 2.4 Additional information

see section 12.5

## **SECTION 3: Composition/information on ingredients**

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

#### **General information**

When in doubt or if symptoms are observed, get medical advice. Never give anything by mouth to an unconscious person or a person with cramps. If unconscious but breathing normally, place in recovery position and seek medical advice. Observe risk of aspiration if vomiting occurs.

#### **Following inhalation**

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

#### In case of skin contact

After contact with skin, wash immediately with plenty of water and soap. Immediately remove any contaminated clothing, shoes or stockings. Do not wash with: Cleaning agent, acidic Cleaning agent, alkaline Solvents/Thinner

#### After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Protect uninjured eye.

#### **Following ingestion**

Call a physician immediately. Keep at rest. Do NOT induce vomiting. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.

#### Self-protection of the first aider

First aider: Pay attention to self-protection!

## 4.2 Most important symptoms and effects, both acute and delayed

No information available.

## 4.3 Indication of any immediate medical attention and special treatment needed Notes for the doctor

Treat symptomatically.

## Special treatment

First Aid, decontamination, treatment of symptoms.

## **SECTION 5: Firefighting measures**

For spec otective gloves mentioned ab es for body protection. : Chemical protection clothing ic. EN 14605 EN ISO 20345 it substitutes for body protect otection necessary. Respirato ncentrations spray application	ichenzell-Germany; Ansell/Yarra Cit ess/impermeability prior to use. material must be taken into conside n as a function of the specific workir cial purposes, it is recommended to ove together with the supplier of th g Chemical resistant safety shoes cion.	eration. The quality ng place check the ese gloves.

Safety Data Sheet	
according to Regulation (EC) No. 1907	/2006 (REACH)

(NZ/D)

## Trade name :

Revision date : Print date :

# Lithofin OIL-EX

29.08.2023 15.12.2023

Version (Revision) :

5.1.0 (5.0.1)

#### Remark

Use only respiratory protection equipment with CE-symbol including four digit test number. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190).

#### **General information**

Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500. When using do not eat, drink, smoke, sniff. Avoid contact with skin, eyes and clothes. Remove contaminated, saturated clothing immediately. Wash contaminated clothing prior to re-use. Wash hands before breaks and after work. Apply skin care products after work. Do not breathe gas/fumes/vapour/spray.

## **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

Appearance :	Paste					
Colour :	light yellow					
Odour :	solvent					
Safety charact	eristics					
Melting point/free	zing point :	(1013 hPa)	<	-18	°C	
Initial boiling point range :	t and boiling	(1013 hPa)	approx.	142	°C	
Decomposition ten	perature :	(1013 hPa)		not determined		
Flash point :			approx.	27	°C	closed cup (EN ISO 3679)
Auto-ignition temp	erature :			not determined		. ,
Sustaining combus	tion			Yes		UN Test L2:Sustained combustibility test
Lower explosion lir Upper explosion lir				not determined not determined		
Vapour pressure :		( 50 °C )	<	3000	hPa	
Density :		( 20 °C )		0,86	g/cm <sup>3</sup>	Pyknometer (DIN EN ISO 2811-1)
Solvent separation	test :	( 20 °C )	<	3	%	Test L1: Solvent separation test (UN)
Water solubility		( 20 °C )		immiscible		
pH : log P O/W :				not applicable not determined		DIN 19268 (Mixture)
Flow time :		(23 ℃)	>	1000	S	ISO cup 4 mm (DIN EN ISO 2431)
Odour threshold :				not determined		, , , , , , , , , , , , , , , , , , ,
Vapourisation rate VOC content-EC	:			not determined 82	Weight-%	*
VOC content-EC				708	g/l	*
VOC-France				not applicable	- 10	Décret no 2011-321 du 23 mars 2011

(\* VOC-EC = "Volatile organic compound (VOC)" means any organic compound having an initial boiling point less than or equal to 250°C measured at a standard pressure of 101,3 kPa; VOC-value in g/L)

## 9.2 Other information

Data apply to the main component: Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, < 2% aromatics (CAS: 64742-49-0) Lower explosion limit (Vol-%): 0,8 Upper explosion limit (Vol-%): 6,0 log P O/W: 4,0 - 5,7

## **SECTION 10: Stability and reactivity**

The surfactants contained in this mixture comply with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.
