

## Lithofin KF Mildew-Away Removes mould and mildew

### Description

A special product from the LITHOFIN range for ceramics, tiles (KF) and sanitary areas. Ready-to-use special cleaner based on active chlorine compounds with a broad spectrum of activity for cleaning and disinfecting.

### Properties

Lithofin KF Mildew-Away removes black mould and mildew stains as well as vegetable discolouration. It acts spontaneously and due to the preventive effect, it protects against new infestation for a long time.

#### Technical Data:

Density: approx. 1.1 g/cm<sup>3</sup>

pH value: approx. 13

Appearance: liquid, clear, yellowish

Smell: slightly pungent

Solubility in water: very good

### Scope

In the sanitary sector, for removing black mildew stains from cement and silicone joints, tiles and plastic parts, as well as for removing mould and algae from masonry, concrete, natural stone and other mineral substrates.

### Processing

Remove the child-proof cap and unscrew the sprayer. Turn the nozzle to >spray< and spray infested areas from approx. 15 to 20 cm, application quantity 100 ml/m<sup>2</sup>. Leave on for up to 20 minutes. In case of severe infestation, repeat the process after 10 minutes. Then wash thoroughly with plenty of water and a hard sponge or brush. Child-resistant clasp screwed back on. Rinse the sprayer with water.

Please note: Causes light stains on textiles. Do not spray plants, textiles, metals such as iron, copper, nickel, aluminium, etc., wash off any splashes immediately with plenty of water. Do not use on polished marble, delicate glazed tiles and enamel. We recommend testing in an inconspicuous place beforehand.

Note: In the case of extremely heavy infestation on permanent elastic joints, we recommend cutting out the joint material, then spraying the open joint well and grouting again.

Coverage: up to approx. 8 m<sup>2</sup>/per litre.

### Storage

After use, unscrew the sprayer and rinse with water. Screw the child-proof cap back onto the bottle. Store in a cool, dark place in an upright position. Use the product within 6 months to 1 year. See the expiry date on the packaging.

### Environmental protection

The surfactants are biodegradable in accordance with Regulation (EC) No. 648/2004 (detergents regulation). Disposal: The container is made of environmentally friendly polyethylene (PE) and is recyclable. Rinsed containers can be disposed of via recyclable material collection systems (see note on label).

For information on labelling, transport and disposal, please refer to the safety data sheet.

### Packaging

a) 500 ml bottle with child-proof cap (10 per box)

**Note:** For regular maintenance cleaning in sanitary areas, we recommend Lithofin KF Active-Clean.

Please note that the environmental and safety information applies to the (concentrated) product in delivery form. If dilution is appropriate for the application, the classification may change. This information can and should only provide non-binding advice. The use of the products must be adapted to the local conditions and the surfaces to be treated. If there is no experience and in all cases of doubt, the product should be tried out in an inconspicuous place beforehand. (AUS-NZ2.26/9.25)
