

## Lithofin KF Grout Cleaner Restores grout lines

### Description

A special product from the LITHOFIN range for ceramics, tiles (KF) and sanitary areas. The concentrated cleaning product is alkaline but solvent-free. It contains active cleaning substances as well as special grease- and dirt-dissolving additives.

### Properties

Lithofin KF Grout Cleaner dissolves organic contaminants, especially oils, greases and associated dirt, so that after washing with water, the joints and tiles are hygienically clean again.

#### Specifications:

Density: approx. 1.0 g/cm<sup>3</sup>

pH value: approx. 12

Appearance: liquid, clear, brownish

Odour: non-specific

Solubility in water: complete

### Scope

For restoring the original grout colour and for thoroughly cleaning and degreasing grout in the kitchen and bathroom. Can also be used to clean baking trays, hobs, etc.

### Processing

Put a dash of Lithofin KF Grout Cleaner on a damp sponge, apply to the soiled surfaces and leave on for about 10 to 15 minutes. If it is more dirty, use it pure, leave it on for a longer period of time and brush in between. Always wash well with water.

Please note: We recommend testing in an inconspicuous area beforehand. Do not apply to alkali-sensitive surfaces, such as polished marble, anodised, lacquered surfaces, etc. Do not use on hot surfaces.

Coverage: Up to approx. 10 m<sup>2</sup>/litre.

### Storage

Cool and closed. Not above 25°C; can be stored for approx. 3 years.

### Environmental protection

The surfactants are biodegradable in accordance with Regulation (EC) No. 648/2004 (detergents regulation). Disposal: The container is made of environmentally friendly polyethylene (PE) and is recyclable. Rinsed containers can be disposed of via recyclable material collection systems (see note on label).

For information on labelling, transport and disposal, please refer to the safety data sheet.

### Packaging

a) 500 ml bottle with childproof cap (10 per box)

Please note that the environmental and safety information applies to the (concentrated) product in delivery form. If dilution is appropriate for the application, the classification may change. This information can and should only provide non-binding advice. The use of the products must be adapted to the local conditions and the surfaces to be treated. If there is no experience and in all cases of doubt, the product should be tried out in an inconspicuous place beforehand. (EN11.25/9.25)
