

## Lithofin Plastic Cleaner

### Description

A special product for all plastic surfaces in households and businesses. Lithofin Plastic Cleaner is a solvent-free, mildly alkaline cleaner.

It contains surface-active cleaning substances as well as grease- and dirt-dissolving additives.

### Features

Lithofin Plastic Cleaner dissolves and removes general and stubborn dirt, dark dirt marks, oily and greasy dirt, adhesive residues and much more.

#### Technical data:

Density: approx. 1.0 g/cm<sup>3</sup>

pH value: approx. 10

Appearance: liquid clear, yellowish

Smell: lemony fresh

Solubility in water: good, complete

### Scope of application

For thorough cleaning of all plastic surfaces in the household, kitchen and bathroom as well as in offices and other commercial areas. Particularly suitable for plastic windows and doors, roller shutters.

Also ideal for painted surfaces.

### Application

Turn the nozzle of the spray gun to >spray<.

Spray the soiled surface, leave it on for a short time and wipe it off with a damp cloth or paper towel. Done.

For heavier soiling, brush if necessary.

After use, set the nozzle back to >closed<.

Please note: Do not spray on hot surfaces.

For sensitive surfaces, freshly painted parts, etc., try the product on an inconspicuous area beforehand.

Coverage: up to approx. 15 m<sup>2</sup>/litre.

### Storage

Closed and standing, cool, not above 25°C; can be stored for up to approx. 4 years.

### Environmental protection

The surfactants are biodegradable in accordance with regulation (EC) No. 648/2004 (detergents regulation).

#### Disposal:

The container is made of recyclable, environmentally friendly polyethylene (PE) and is recyclable. Rinsed containers can be disposed of and recycled via the recyclable material collection system (see note on label).

For information on labelling, transport and disposal, please refer to the safety data sheet.

### Packaging units (PU)

**a)** 500 ml bottle with sprayer (10 pieces in a box)

Please note that the environmental and safety information applies to the (concentrated) product in delivery form. If dilution is appropriate for the application, the classification may change.

This information can and should only provide non-binding advice.

The use of the products must be adapted to the local conditions and the surfaces to be treated. If there is no experience and in all cases of doubt, the product should be tried out in an inconspicuous place beforehand.
