

## Lithofin P&L Power-Cleaner for used surfaces

### Description

A special product for sealed parquet and cork floors, laminate floors and all plastic floors.

The solvent-free, mildly alkaline cleaning concentrate contains a balanced combination of dissolving and cleaning components.

### Features

Lithofin P&L Power-Cleaner dissolves and removes heavy general soiling, greasy dirt, encrusted floor care products and old gloss paint.

#### Technical data:

Density: approx. 1.0 g/cm<sup>3</sup>

pH value: approx. 8.5

Appearance: liquid clear, yellowish

Smell: lemony fresh

Solubility in water: good, complete

### Scope of application

For deep cleaning of heavily soiled floors and for the complete removal of encrusted floor care products and old glossy films.

Substrates: sealed parquet and cork, laminate and plastic floors.

### Application

Depending on the soiling, apply Lithofin P&L Power-Cleaner pure or diluted up to 1:2 with a mop and distribute, leave on for approx. 5 minutes, support with a scrubbing brush if necessary, then wipe with clear water with a damp cloth. It is best to proceed in sections.

For heavier soiling, use pure, leave on for a short time and wipe slightly with a damp cloth. If necessary, repeat the process after it has dried completely.

Important – Please note: The floors described can absorb water in the seam area and swell in the process. Therefore, it is essential to keep the exposure time to a minimum, avoid standing moisture at all costs and never leave the floor wet for a long time.

Please be sure to follow the processing and care instructions of the floor manufacturers.

Coverage: approx. 10 to 30 m<sup>2</sup>/litre depending on dilution.

### Storage

Cool and closed. Not above 25°C; can be stored for approx. 3 years.

### Environmental protection

The surfactants are biodegradable in accordance with regulation (EC) No. 648/2004 (detergents regulation).

#### Disposal:

The container is made of recyclable, environmentally friendly polyethylene (PE) and is recyclable. Rinsed containers can be disposed of and recycled via the recyclable material collection system (see note on label).

For information on labelling, transport and disposal, please refer to the safety data sheet.

### Packaging units (PU)

a) 1 litre bottle with child-resistant cap  
(10 pcs. in a box)

Please note that the environmental and safety information applies to the (concentrated) product in delivery form. If dilution is appropriate for the application, the classification may change. This information can and should only provide non-binding advice. The use of the products must be adapted to the local conditions and the surfaces to be treated. If there is no experience and in all cases of doubt, the product should be tried out in an inconspicuous place beforehand. (GB2.26/9.25)
